Fire-fighting media and instructions: In case of fire use carbon dioxide, dry chemicals, or foam.

Special fire-fighting procedures/equipment: Self contained breathing apparatus and protective clothing is recommended to protect fire fighters from any hazardous combustion or decomposition products. Pressure build-up in the closed container may occur due to heat exposure.

SECTION 6 Accidental Release Measures

Personal precautions: Use appropriate safety equipment. Avoid inhaling vapors or mist. Avoid contact with eyes, skin and clothing.

Environmental precautions: Do not allow spilled product to enter drains, sewers, or waterways.

Cleanup: Ventilate area. Eliminate all sources of heat and flame. Stop leak if safe to do so. Contain spill. Use absorbent material, such as vermiculite or sand. Place in suitable container for later disposal.

Prohibited materials: None.

SECTION 7 Handling and Storage

Handling: Use appropriate safety equipment. Use with adequate ventilation. Avoid contact with eyes, skin and clothing. Keep away from extreme heat. Keep container closed when not in use.

Storage: Store away from extreme heat, flame, or ignition sources. Pressure build up may occur due to heat exposure or temperature change. Release pressure by slowly opening container.

SECTION 8 Exposure Controls and Personal Protection

Hygiene measures: Avoid contact with eyes, skin and clothing. Do not eat, drink, or smoke while handling this product.

Control measures: General ventilation should be sufficient. Providing approved respirators for emergencies, or when mist/vapor concentrations are unknown may be warranted. Availability of eye wash station, washing facilities and safety shower is recommended.

Personal protection:

Skin: Wear suitable gloves; chemical resistant gloves, such as polyvinyl chloride-coated, are recommended. Wear protective clothing suitable to prevent contact. Remove contaminated clothing and launder before wearing.

Eyes: Safety glasses are recommended.

Respiratory: Not normally required. Control vapor or mist concentrations below exposure limits through use of general or local exhaust ventilation.
